# Racks and Rolls

STEEL STRUCTURES

Catalog of basic products

We manufacture steel constructions for the glass, window, door, plexiglass, stone, transport and other industries.

Since 2011, we have been building a modern enterprise based on solid foundations.We carry out orders for both the largest international corporations and smaller bussinesses. We always provide technical consulting and together with the client, we find the best solutions.We service every order comprehensively and reliably.

In 2017, we moved production to the new production hall. We are constantly increasing the production hall and developing the machine park. All of our products are made of certified materials.Each product has a CE certificate and a guarantee.

We will meet all the boldest requirements regarding the size, dimensions, colours and size of our steel constructions.We realize orders from one piece.

Racks and Rolls
STEEL STRUCTURES

We support each Customer professionally and comprehensively.

We offer help at every stage of the contract.

Tell us what kind of product you need and we will do the rest.

Discover the advantages of working with us.

Reliable deadlines

We deliver our products on time. Our production planner will determine not only the deadline for the completion of the order, but also the time of delivery of finished products to your company.

Offer within 24h

Our standard products are prepared up to 24 hours from receiving the request for quotation. All other products, we are able to price and design within 48 hours - a project sent by the client, preparing a project for individual customer needs, over 48 hours.

Certyfications

We make every effort to ensure that our products have the highest quality and meet the requirements of each customer, all materials and machines have the necessary certificates and approvals. Our employees have adequate qualifications.

Transport

Due to the fact that the total product price also consists/includes transport, we can help organize it at your request. We always make sure that the final price is the most beneficial.

Load capacity calculation - guarantees and operating instructions

Each of the products contains precisely defined load capacities certified by the signature of an experienced constructor. We attach the instructions for use and warranty to all products. Each of our products has a nameplate with the date and place of production.

Individual elements of the products and their dimensions can be freely modified taking into account individual customer requirements, it refers to the elements below:

- ➢ number of supporting horizontal bars,
- ➢ number of supporting vertical bars,
- ➢ number of holdfasters,
- ➢ load capacity,
- ➢ total length and loading length,
- ➢ total height and loading height,
- ➢ overall width and loading width,
- ➢ color from the RAL palette, or galvanized.

Range of products includes steel racks and other steel structures for internal and external transportion:

- ➢ trolleys for window and door profiles,
- ➢ trolleys for glazing beads,
- ➢ trolleys and stands for sashes and frames,
- ➢ trolleys and racks for transporting and storing windows,
- ➢ assembly tables,
- ➢ accessories and others.

Tell us what product you are looking for and we will do the rest.

If you are interested in a product not described in the offer, please contact our sales department.

Stands for windows, profiles, doors, sashes, frames for segregation.

Stand type A STA DP1

A product for universal use. Used for transportation and storage of glass, windows, doors, profiles, plexiglass and others.

Characteristic:

➤ it can be painted in any colour from RAL palette or hot-dip galvanized,

➤ handles for transport with forklift, crane, gantry,

➤ supporting bars lined with a chamber and full profile,

➤ possibility of adding security poles, information sheets, descriptions, laser-cut inscriptions in plates or profiles,

➤ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
2200mm	2190mm	800mm	2x210mm	2270mm	2085mm	135kg	2000kg

Stand type A STA B

A product for universal use. Used for transportation and storage of glass, windows, doors, profiles, plexiglass and others.

Characteristic:

➤ it can be painted in any color from RAL palette or hot-dip galvanized,

➤ handles for transport with forklift, crane, gantry,

➤ supporting bars lined with a chamber and full profile,

➤ possibility of adding security poles, information sheets, descriptions, laser-cut inscriptions in plates or profiles,

➤ **possibility of product configuration according to the customer's requirements.**

Racks and **Rolls**

STEEL STRUCTURES

Trolleys for glass, glass, profiles, windows, sashes, frames, for storied storage, segregation, under pallets.

Trolley type A WTA SOC

The trolley is used for transporting glass and combined glass as well as windows.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of using different wheels on various foundation, among others

polyurethane, rubber, polyamide and others,

➢ two steering wheels, two wheels with brakes,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ possibility of mounting safety bars,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1800mm	1720mm	900mm	2x270mm	2230mm	1960mm	90kg	1800kg

Trolley type L WTL K

The trolley is used for transporting glass and combined glass as well as windows and doors.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of using different wheels on various foundation, among others

polyurethane, rubber, polyamide and others,

➢ two steering wheels, two wheels with brakes,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ possibility of mounting safety bars,

➢ **possibility of product configuration according to the customer's requirements.**

Trolley type L WTL P

The trolley is used for transporting glass and combined glass as well as windows and doors.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,

➢ two steering wheels, two wheels with brakes,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ possibility of mounting safety bars,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1100mm	1000mm	860mm	700mm	1400mm	790mm	55kg	1000kg

Trolley for boxes with glass type L WB

The trolley is used to transport cotainers with glass.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,

➢ two steering wheels, two wheels with brakes,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ possibility of mounting safety bars,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
2500mm	2495mm	800mm	260mm	2285mm	1970mm	120kg	2500kg

Trolley for windows WNOS

The trolley is used to transport windows.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of using different wheels on various foundation, among others,

polyurethane, rubber, polyamide and others,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ possibility of mounting safety bars,

➢ **possibility of product configuration according to the customer's**

requirements.

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1600mm	1600mm	1200mm	1100mm	1850mm	1150mm	80kg	1000kg

Trolley to segregate WDSX

The trolley is used for internal transport and storage, frame profiles and wing

windows.

Charakteristic:

➢ securing bars with PCV cover,

➢ 24 bars,

➢ 6 supporting bars covered with a chamber profile,

➢ possibility of using different wheels on various foundation, among others,

polyurethane, rubber, polyamide and others,

➢ 4 steering wheels, including two with brakes,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity

Trolley to segregate WDSN

The trolley is used for transporting and storing internal windows, doors and frames.

Charakteristic:

➢ securing bars with felt,

➢ trolley base lined with plywood,

➢ possibility of using different wheels on various foundation among others, polyurethane, rubber, polyamide and others,

➢ 4 steering wheels, including two with brakes,

➢ 16 bars,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
2160mm	16x100mm	970mm	900mm	2635mm	2280mm	145kg	600kg

Trolley to segregate WDSNP

The trolley is used for transporting and storing indoor windows, doors and frames.

Charakteristic:

➢ securing bars with PCV cover,

➢ trolley base lined with plywood,

➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,

➢ 4 steering wheels, including two with brakes,

➢ 12 bars,

➢ product available in the form of fire zinc,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1514mm	12x100mm	900mm	2x420mm	1650mm	1400mm	95kg	600kg

Trolley for profiles WNP04

The trolley is used for transporting and storing profiles.

Charakteristic:

➢ securing bars with PCV cover,

➢ 30 bars,

➢ possibility of using different wheels on various foundation, among others,

polyurethane, rubber, polyamide and others,

➢ 2 fixed and 2 steered wheels with brakes,

➢ **possibility of product configuration according to the customer's**

requirements.

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1520mm	1500mm	840mm	2x400mm	2100mm	15x100mm	140kg	1000kg

Trolley for profiles WNP01

The trolley is used for transporting and storing profiles.

Charakteristic:

➢ securing bars with PCV cover,

➢ 12 bars,

➢ possibility of using different wheels on various foundation, among others,
polyurethane, rubber, polyamide and others,

➢ 2 fixed and 2 steered wheels with brakes,

➢ **possibility of product configuration according to the customer's
requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
3000mm	3000mm	1050mm	2x500mm	2500mm	6x350mm	150kg	1000kg

Trolley for wings and frames WNR01

The trolley is used to transport and store in-house wings and window frames.

Charakteristic:

- ➢ securing bars with PCV cover,
- ➢ 24 bars,
- ➢ trolley baselined with rubber profiles,
- ➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,
- ➢ 2 fixed and 2 steered wheels with brakes,
- ➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
1580mm	12x100mm	1260mm	2x450mm	1850mm	24x100mm	120kg	1000kg

Trolley for storage WDP

The trolley is used for internal transport. It guarantees the optimization of the production hall by the possibility of warehousing of the products.

Charakteristic:

- ➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,
- ➢ it can be painted in any color from RAL palette or hot-dip galvanized,
- ➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
3140mm	3080mm	760mm	620mm	1080mm	800mm	90kg	1500kg

Trolley for pallets WPPD

The trolley is used for internal transport. Used as a base for pallets.

Charakteristic:

➢ possibility of using different wheels on various foundation, among others, polyurethane, rubber, polyamide and others,

➢ it can be painted in any color from RAL palette or hot-dip galvanized,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
775mm	775mm	475mm	475mm	175mm	-	30kg	500kg

Trolley for pallets WPPDOKW

The trolley is used for internal transport. Used as a base for pallets.

Charakteristic:

➢ possibility of using different rolls on different foundation,

➢ it can be painted in any color from RAL palette,

➢ 16 rollers, brake

➢ tow bar,

➢ product adapted to long-pile pallets,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity

Car stands for glass/windows.

Stand type A STA SAM STU

The car rack is used for transporting windows, doors, glass, combined glass and others.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of securing the load with poles lined with a cellular profile with a fastening belt,

➢ fixing to the car,

➢ product available in galvanized form,

➢ possibility of adding a toolbox with a key lock,

➢ **possibility of product configuration according to the customer's requirements.**

Length	Loading length	Width	Loading width	Height	Loading height	Weight	Capacity
2400mm	2320mm	2050mm	2x850mm	2100mm	2030mm	145kg	2000kg

Stojak typu A STA SAM PLS

The car stand is used for transporting windows, doors, glass, combined glass and others.

Charakteristic:

➢ supporting bars lined with a chamber and full profile,

➢ possibility of securing the load with poles lined with a cellular profile with a fastening belt,

➢ fixing to the car,

➢ product available in galvanized form,

➢ possibility of adding a toolbox with a key lock,

Assembly tables

Brush assembly table

Assembly tables for universal use. A product used in many industries.

Charakteristic:

➢ possibility of mounting the net under the working surface,

➢ possibility to adjust legs,

➢ tables can be equipped with brushes or polyamide profiles,

➢ the possibility of using information sheets,

➢ on customer's request, any modifications of the products,

➢ tables can be painted in any color from the RAL palette.

Polyamide assembly table

Assembly tables for universal use, used in many industries.

Charakteristic:

➢ possibility to adjust legs,

➢ possibility of mounting the net under the working surface,

➢ tables can be equipped with brushes or polyamide profiles,

➢ the possibility of using information sheets,

➢ on customer's request, any modifications of the products,

➢ tables can be painted in any color from the RAL palette.

Tilting assembly table

Assembly tables for universal use, used in many industries.

Charakteristic:

➢ possibility of mounting the net under the working surface,

➢ tables can be equipped with brushes or polyamide profiles,

➢ the possibility of using information sheets,

➢ on customer's request, any modifications of the products,

➢ tables can be painted in any color from the RAL palette.
